

**SECTION 4****SCHEDULE OF RATES AND TRADE/OCCUPATION****CLASSIFICATIONS**

Note 1 Rates shown below are annual premium rates per cent for fire and lightning perils and are applicable to Building, Contents and Rent unless stated otherwise.

Note 2 Attention is drawn to all the Rules given in Section 1 which govern these rates.

Note 3 Class of Construction is described in Section 2.

Note 4i) Attention is drawn to the Restriction of Spray Painting/Powder Spraying Warranty 4B in Section 7 which is obligatory to be included in all policies covering manufacturing risks and workshops, except motor repair workshops garages and service stations (with spray painting) under risk code 2806.

ii) In respect of the Plastics Risks Category (risks codes 2501-2512), where the trade/occupation process involves Spray Painting, Warranty 4B need not be applied when an additional rate of 0.100% is charged. However, Warranty 24A (in place of Warranty 4B) is to be applied on the policy as spray painting process is being carried out.

In the event the insured is unable to comply with Warranty 24A, a loading of 35% (i.e. on base rate plus 0.100%) is to be imposed accordingly.

Note 5 Appropriate warranties to a specific trade is to be included where applicable, in addition to the warranties indicated in the column "Warranties Applicable".
